

TEMPERATURE SENSOR

T-208G

Applications:

Temperature sensor for measurement of liquids, gases, solid bodies.

Technical Data

Measuring range

T-208-K up to 1150°C

Measuring insert NiCr-NiAl (K) up to PN-EN 60584
others (J,N,L,T,E) IEC 584

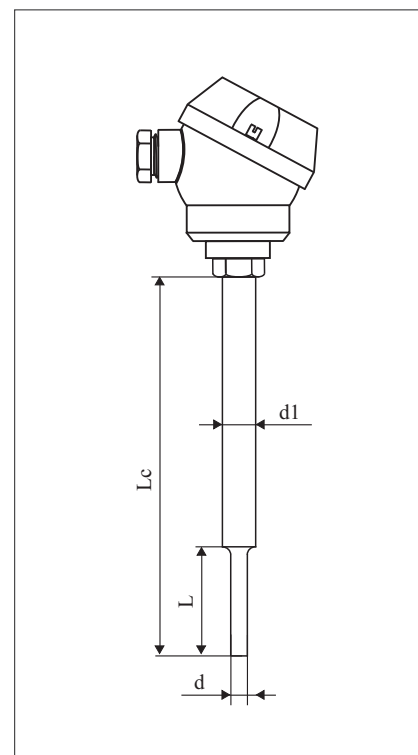

Terminal head ambient

temperature	100°C or 150°C
-------------	----------------

With transmitter P-table of transmitters

Ordering code

[illegible]

Order example:

T-208G-K-1-4-8-150-30-B-SO-2- single thermocouple type K, Inconel sheath, sheath diameter $d=4$ mm, diameter $d_1=8$ mm, length $L_c=300$ mm, length $L=30$ mm, terminal head type MA, ungrounded junction, class 2.
