

T-118b

Technical Data

The technical drawings show two types of tie rods, T and R, used for securing doors.

- Type T:** This tie rod has a rectangular head on one end and a hexagonal nut with a threaded section on the other. The dimension L_c is the length of the threaded section, and d is the diameter of the rod.
- Type R:** This tie rod has a rectangular head on one end and a hexagonal nut with a threaded section on the other. The dimension L_c is the length of the threaded section, and d is the diameter of the rod.
